City-wise

(Among top-100 B-schools)

METHODOLOGY

HOW THE B-SCHOOLS WERE RANKED

The 2026 India Today Group survey of the country's business schools was conducted by Delhi-based market research firm Marketing & Development Research Associates (MDRA). The ranking provides the most credible and exhaustive rankings of India's Best B-schools based on the most recent data. The ranking provides a comprehensive analysis of key areas, clearly highlighting which courses are best suited for different categories of aspirants. As management education evolves, we have expanded our rankings to serve distinct audiences. This year, too, dedicated rankings are being presented for Top Executive Programmes, Top Advanced Management Programmes (for professionals with over 10 years of experience), Top Executive Fellow Programmes in Management (EFPMs), Top On-campus Fellow Programmes in Management (FPMs/PhDs) and the Top Online MBAs in India.

Full-time MBA/ PGDM ranking: A comprehensive list of B-schools, offering full-time classroom management programmes (PGDM/ MBA), established at least five years ago and with a minimum of three graduated batches, was drawn for the rankings. An objective questionnaire was finetuned to obtain the latest relevant information from the institutes on 127 attributes to give stakeholders more realistic, updated and accurate information. More than 2,000 B-schools across India, fulfilling the qualification criteria for participation, were contacted, 279 of them responded within the deadline, and 277 eligible ones fulfilling the qualifying criteria were ranked.

After receiving the objective data, four processes—data cleaning logical checks, validation, back-checks and audits—were conducted. In the first stage, each aspect of the details provided by the B-schools was carefully examined through available information and database available with MDRA. In the second stage, verification and audits of the participating B-schools were conducted by MDRA researchers to ensure accuracy and correctness of the data submitted. After cross-checking the data with

Excellence in Management Education since 1992
