4. Globalisation : Responses from developed and developing societies.
5. Approaches to the Study of International Relations : Idealist, Realist, Marxist, Functionalist and Systems theory.
6. Key concepts in International Relations : National interest, Security and power; Balance of power and deterrence; Transnational actors and collective security; World capitalist economy and globalisation.
7. Changing International Political Order:
   (a) Rise of super powers; strategic and ideological Bipolarity, arms race and Cold War; nuclear threat;
   (b) Nonaligned movement: Aims and achievements;
   (c) Collapse of the Soviet Union; Unipolarity and American hegemony; relevance of non-alignment in the contemporary world.
8. Evolution of the International Economic System : From Brettonwoods to WTO; Socialist economies and the CMEA (Council for Mutual Economic Assistance); Third World demand for new international economic order; Globalisation of the world economy.
9. United Nations : Envisaged role and actual record; specialized UN agencies-aims and functioning; need for UN reforms.
10. Regionalisation of World Politics : EU, ASEAN, APEC, SAARC, NAFTA.
11. Contemporary Global Concerns : Democracy, human rights, environment, gender justice, terrorism, nuclear proliferation.

India and the World :

1. Indian Foreign Policy : Determinants of foreign policy; institutions of policy-making; continuity and change.
2. India's Contribution to the Non-Alignment Movement : Different phases; current role.
3. India and South Asia :
   (a) Regional Co-operation : SAARC–past performance and future prospects.
   (b) South Asia as a Free Trade Area.
   (c) India's "Look East" policy.
   (d) Impediments to regional co-operation: river water disputes; illegal cross-border migration; ethnic conflicts and insurgencies; border disputes.
4. India and the Global South : Relations with Africa and Latin America; leadership role in the demand for NIEO and WTO negotiations.
5. India and the Global Centres of Power : USA, EU, Japan, China and Russia.

6. India and the UN System : Role in UN Peace-keeping; demand for Permanent Seat in the Security Council.
7. India and the Nuclear Question : Changing perceptions and policy.
8. Recent developments in Indian Foreign policy : India's position on the recent crises in Afghanistan, Iraq and West Asia, growing relations with US and Israel; vision of a new world order.

PSYCHOLOGY
PAPER–I

Foundations of Psychology

1. Introduction—Definition of Psychology; Historical antecedents of Psychology and trends in the 21st century; Psychology and scientific methods; Psychology in relation to other social sciences and natural sciences; Application of Psychology to societal problems.

2. Methods of Psychology—Types of research: Descriptive, evaluative, diagnostic and prognostic; Methods of Research: Survey, observation, case-study and experiments; Characteristics of experimental design and non-experimental design, Quasi-experimental designs; Focussed group discussions, brain storming, grounded theory approach.

3. Research Methods—Major steps in Psychological research (problem statement, hypothesis formulation, research designs, sampling, tools of data collection, analysis and interpretation and report writing) Fundamental versus applied research; Methods of data collection (interview, observation, questionnaire); Research designs (ex-post facto and experimental); Application of statistical technique (t - test, two way ANOVA correlation, regression and factor analysis); Item response theory.

4. Development of Human Behaviour—Growth and development; Principles of development, Role of genetic and environmental factors in determining human behaviour; Influence of cultural factors in socialization; Life span development-Characteristics, development tasks, promoting psychological well-being across major stages of the life span.

5. Sensation, Attention and Perception—Sensation: concepts of threshold, absolute and difference thresholds, signal-detection and vigilance; Factors influencing attention including set and characteristics of stimulus; Definition and concept of perception, biological factors in perception; Perceptual organization-influence of past experiences, perceptual defence-factors influencing space and depth perception, size estimation and perceptual readiness; The plasticity of perception; Extrasensory perception; Culture and perception, Subliminal perception.

6. Learning—Concept and theories of learning (Behaviourists, Gestaltalist and Information processing models); The Processes of extinction,
