Consumer Products, said the company had raised tea prices by around 8-10% since the April-June quarter, in line with inflation in the category.

"We had guided for a 50-70 bps expansion (in margin) when we started the year. We have seen margin pressure coming through the year, but we have also taken price increases. In salt, from ₹30 to ₹32 to ₹34. So, as we have seen any bit of pressure on costs, we have translated it into price. We remain aggressively focused on expanding margins for the year," he stated in a call with analysts.

Tata Consumer Products' standalone net profit for the September quarter fell more than 15% to ₹243 crore, from ₹285 crore, due to an exceptional fair value loss on a financial investment held in an associate. Its consolidated profit, however, rose 16% to ₹469 crore.

Standalone revenue rose 17% to ₹4,208 crore, from ₹3,595 crore, while expenses were nearly 18% higher. The EBITDA margin in the India business slipped to 11.1%, from 11.5%.

Manish Tiwary, Chairman and Managing Director of Nestlé India, also flagged a challenging environment.

"Rising inflation, particularly food inflation, is a reality. We remain focused on navigating these external challenges through continuous innovation and renovation, sustained investments behind our brands, and an intensified focus on productivity and operational efficiencies to mitigate commodity cost pressures," he stated.

Those efforts helped Nestlé
