The Samruddha Bharat Foundation (SBF) works to forge an India that is a global superpower, a cosmopolitan beacon of democracy and accommodative of all diversities. It does so by constructively reshaping India's:

- ***Software*** (transforming mass consciousness, public discourse, popular and social culture and education, as well as by nurturing principled coalitions); and
- ***Hardware*** (reforming policies, institutions and governance to reorder India's polity).

In breathing life into these goals, the SBF works closely with India's progressive parties, the foremost thinkers, activists, diaspora, professionals as well as a plethora of organizations. The SBF thus serves as a clearing house for all progressive forces. For further details, scan the QR code below:
