Reconnecting the Party and Its Core: A Journey beyond Politics

In the complex world of Indian politics, the Congress party is renowned for its extensive organizational structure, characterized by a broad base of supporters rather than a limited cohort of dedicated members. Nonetheless, questions occasionally arise concerning the party's capacity to establish a meaningful connection with its core members, those individuals who ardently contribute to its endeavours. It becomes apparent that the focus has been more on the party's ideals than on the individuals providing their support. Historically, ordinary party members faced limited opportunities to engage with their leaders or participate in events that would invigorate their enthusiasm. This is where the BJY played a pivotal role, instigating significant changes.

The BJY transcended being merely a journey across India. It constituted a distinctive initiative with the explicit goal of re-establishing the Congress party's bonds with its grassroots members. Rahul Gandhi, cognizant of the notion that a party's strength emanates from its dedicated workers and supporters, made a strategic decision to foster this connection. Throughout the Yatra, he actively engaged in dialogues with party workers, meticulously addressing their concerns and imparting inspiration to fortify their commitment to the party's cause.

This innovative approach effectively dismantled the erstwhile barriers that maintained a perceptible distance between the leader and ordinary party members, concurrently dismantling entrenched power structures. The Bharat Jodo Yatra facilitated a closer rapport between Rahul Gandhi and the common people, nurturing a sense of camaraderie and friendship that ultimately fortified the party's core. Rooted in a national movement, the Congress party historically relied on 'sangharsh' (struggle) and the structures it erected to engage with its cadre. Notable instances, such as the Quit India movement in 1942, witnessed thousands of party cadres making substantial sacrifices in terms of wealth and time. The ethos of self-sacrifice for the collective good and the nation constituted the traditional means
