expected to stay overnight before his flight to Cuba. But without a passport, he was not going anywhere. He was, essentially, a man without a country, stuck in Moscow's Sheremetyevo Airport until he could get special permission from Russian authorities to leave.

US lawmakers were also stuck. How could they get Snowden back to the United States? "It's almost hopeless unless we find some ways to lean on [Russia]," said US Representative Peter King. US Senator Lindsey Graham said, "I hope we'll chase him to the ends of the earth, bring him to justice and let the Russians know there'll be consequences if they harbor this guy."[2] But US appeals to Russia did not have any effect.

In July 2013, Bolivian President Evo Morales was visiting Moscow. On July 2, Morales left Moscow for Bolivia. Thinking Snowden might be onboard the presidential aircraft, the United States alerted Austria, France, Spain, and Portugal to not allow the plane to cross their air space. Austrian officials forced the plane to land in Vienna, Austria, and searched it. Snowden was not onboard, and the incident sparked outrage from Morales and other Latin American leaders.
