and Victor 2011; Green 2020).

15. Interview with an official from a development IO (January 25, 2021).

16. This is a common measure of institutional power in the literature (see, e.g., Kaya 2015; Lipscy 2015). Countries with large vote shares in a given IO may also possess veto power; for example, this is the case for the United States at the World Bank.

17. The mean number of agreements signed by a given pair of IOs in a given year is 0.19.

18. See https://climate.law.columbia.edu/Silencing-Science-Tracker.

19. Brad Plumer and Coral Davenport, "Science Under Attack: How Trump Is Sidelining Researchers and Their Work." *The New York Times.* December 28, 2019.

20. Luke Bassett, Kristina Costa, and Lia Cattaneo, "Burning the Data: Attacks on Climate and Energy Data and Research." *Center for American Progress*. June 13, 2018. Indeed, two US federal datasets proved pivotal to its 2014 conclusions, and the Department of Energy's carbon emissions data is a key source for its determinations regarding precipitation patterns (ibid).
