*Note*: The membership data are accurate as of February 2020 and include only shareholding members of each institution where applicable; see Clark (2025).

Historical examples illustrate how IFIs' policy interventions can inadvertently fuel populist uprisings. In Europe, austerity measures imposed by the IMF and the EU during the eurocrisis ignited a wave of populist fervor in countries like Greece and Spain, where anti-establishment parties had gained significant traction. Similarly, in Latin America, leaders such as Evo Morales in Bolivia, Rafael Correa in Ecuador, and Hugo Chávez in Venezuela rode to power on a backlash against establishment politicians
