Iron Man is relentless. His sarcasm has subsided, and he fights like a man possessed. "Part of what made the final battle so intriguing wasn't just that these were two huge icons fighting one another," Director Anthony Russo says. "They're both also, in a sense, leaders of the Avengers—Tony coming from his Stark point of view of 'I bring the money, and I bring the tech' and all that, and Cap from his sort of morally grounded point of view that gives him the right of leadership."
