

FLIEGER PARASIT

THE ORBITAL BOMBER'S COMPACT DROP PLANE

DANIEL SIMON. CAPTAIN AMERICA
PRODUCTION DESIGN: RICK HEINRICHS

Again taking his cue from Johnston, Simon said he kept the Hydra Drone plane — also known as the "Drehflugler" — as simple as possible, without any "fancy gimmicks and shapes. Joe kept mentioning 'flying bomb.' So I turned that problem into the solution: The front is literally the bomb. And once released, the plane has a stubby, nose-less appearance."

Concept art by Daniel Simon.
