WINTER SOLDIER VS. FALCON

STORYBOARDS BY RICO D'ALESSANDRO

"Even though this scene is only a brief skirmish within the larger battle, it was still important to get it right," Animatics Supervisor and Storyboard Artist Rico D'Alessandro says. "The objective was simple: have Cap and Falcon land on the Helicarrier before Winter Soldier attacks and ultimately throws both men overboard. My challenge was to figure out how all that goes down—making sure the action beats play out in an exciting, dramatic way. For a storyboard artist, these kinds of loose sequences are the most fun to work on because there's a great opportunity to put your own stamp on the movie."
