

VFX still

Shane Mahan—Legacy Effects: "The whole suit at first glance looks like the original suit, but when you really put it under the microscope, its every plane and line is different. And that's been actually a really enjoyable process with [Conceptual Illustrator] Ryan [Meinerding]. Ryan's one of the best and most cooperative and generous designers that we've ever worked with in terms of the back-and-forth. He's a really tremendous, talented guy."
