Zophres: "The patch was excruciating to get right. On the first [Iron Man movie] they made one, but it was different. We didn't use the same one. You have to get one that's smooth, and we don't want any stitching. The strap had to be leather. At first we had to tie, and then we decided to make it a buckle. But it was this shape that you needed to show the scars, but cover his eye."
