Grand Unified Theory and, 36, 37
large extra dimensions scenario for, 163–64, 165
Newton’s studies of, 8, 9, 162
particle physics and, 160, 164
perceived weakness of, 163, 165
quantum mechanics predictions and, 160
search for some kind of deviation in, 158–60
shape of space and, 68
singularity at beginning of the Big Bang and, 32, 34
spacetime and, 164
Theory of Everything on, 36–37, 159
Gregory, Ruth, 150
GUT (Grand Unified Theory) era, 36–38

Hawking, Stephen, 11, 89, 92–93, 94, 95, 151, 152
Heat Death, 185, 207
black holes and, 95
dark energy and, 114
entropy and, 173
meaning of term, 90
state of universe after, 99–100
Heisenberg’s Uncertainty Principle, 41
helium
Big Bang Nucleosynthesis and, 45, 46
Sun’s production of, 120
Higgs boson
“God Particle” popular name for, 133–34
Higgs field differentiated from, 134
LHC discovery of, 130, 133
measurement of mass of, 141
Standard Model of particle physics and, 130, 134, 141, 181
Higgs field, 196–97
early universe and, 134, 136
electroweak symmetry and, 140, 142
false vacuum and, 143, 143 (fig.)
Higgs boson differentiated from, 134
inflation and, 171
