nichicon

Powering the Future of Manufacturing.

Advanced Capacitor Solutions for Industrial Electronics

As manufacturing becomes smarter, faster and more automated, industrial electronics demand greater performance and reliability. NICHICON capacitor technologies help engineers build the next generation of industrial systems — with high reliability, long life, low ESR and high ripple current capability.

NICHICON CAPACITOR SOLUTIONS FOR INDUSTRIAL ELECTRONICS

LHX Series

High temperature & long life for industrial power supplies

UTK Series

High performance for industrial power electronics

GWC Series

High ripple & high reliability for demanding industrial environments

PCY Series

Compact & high performance for high-density industrial designs
