Electronics For You expo
PUNE 2027

21-23 JAN 2027
Auto Cluster Exhibition Center,
Pune, India

Pune's Electronics Expo!

with conferences focused on Automotive Tech & EVs.

Pune is one of India's fastest growing electronics and automotive regions. The Pune-Nasik-Mumbai triangle represents a mega market for suppliers of electronics and IoT solutions. Till 2023, there was no B2B event or technical conference catering to this region...

Things changed in March 2023. Electronics For You team organised the 1st edition of EFY Expo @ Pune, along with the MOVES Conference. The response from exhibitors and the audience was "better than expected" in previous editions.
