Baryons
Basic physics. *See also* Physics
Beta-decay particle interactions
Biology, physics and
Bohr, Niels
Brahe, Tycho
Brownian motion, defined
Bullets, quantum behavior experiment
Burning, defined

Carbon
Carbon dioxide (CO_2)
Carbon monoxide
Cavendish's experiment
Cells, biological functions
Challenger (space shuttle)
Charge
  conservation of
  electric fields and
  quantum electrodynamics
Chemical energy
Chemical formula, defined
Chemical reactions
  atomic hypothesis
  as natural phenomenon
Chemistry, physics and
Circulating fluids
Cluster of galaxies
Compression, of a gas
Conservation of energy
  gravitational potential energy
  kinetic energy
  law of
  other forms of energy
Copernicus
Cosmic rays
Coupling, photons
