Crystalline array
Curved space-time
Cytosine

Density
  gas pressure proportional to
  waves of excess
Deoxyribonucleic acid (DNA)
Dissolving air and solids in water
DNA (deoxyribonucleic acid)
Double stars
Dynamic processes, defined

Earth, mass of
Earth-moon system, with tides
Earth sciences
Earthquakes
Einstein, Albert
Elastic energy
Electric field
  defined
  magnetism and
  quantum electrodynamics
Electrical energy
Electrical particle interactions
Electrical potential energy
Electricity
  compared to gravitation
  forces of
  as natural phenomenon
Electromagnetic field, defined
Electromagnetic waves
Electron microscopes
Electrons. *See also* Quantum behavior
  compared, muons
  determine chemical properties
  mass/charge
