slowed by a mass/gravitational field, 9–13, 75–77
synchronization of, 61–62
Connes, Alain, 138–42, 225n85
consciousness, 63, 173, 182–87, 199–203
internal consciousness of time, 183, 186
continuity, 84, 96
Copernicus, Nicolaus, 11, 201, 218n26

death, 206
fear of, 206, 207–8
delirium, collective, 211
Democritus, 85, 101, 221n54
Descartes, René, 176–77, 220–21n48
DeWitt, Bryce, 119, 121–22, 124
diurnal rhythms, 62–63
Dorato, Mauro, 215n3
Duino, 36
Durkheim, Émile, 229n122

Earman, J., 226n90
Ecclesiastes, 131, 198
Einstein, Albert, 10–12, 37–40, 44, 52–53, 197, 218n26, 223n66
and Besso, 114–15
general theory of relativity, 16
and the gravitational field, 74–79, 195
on illusion of time, 108–9, 114
simultaneity, 218n27, 222n62
special relativity theory, 48, 218n26
at Swiss Patent Office, 61
electrons, 85, 87, 89–90, 124, 138
Ellis, George, 219n34
energy, 159–60
conservation of, 27, 135–36, 159
thermal. *See* heat
and thermal time, 134–37. *See also* thermal time
entropy, 25–36, 136, 143, 145–51, 155–57, 159–66, 196–97, 198, 217n15, 217n20, 226n94
and blurring, 21–36, 135–37, 144–51, 154, 155–57, 199
Clausius's equation, 25–27, 157, 188–89
and coarse graining, 217n18
in distant past, 143, 146–51, 161, 163–64, 167, 169
increase, 161–66, 189, 196, 217n15
low, 31–32, 143, 146–51, 156–57, 160–63, 167, 169, 196
and perspective, 147–50
second law of thermodynamics, 23–28, 149, 160, 165
eternalism, 108–9. *See also* block universe
events
relations, events and loop theory without a time variable, 117–28
world as network of, 95–104, 195
evolution, 207–10

fear of death, 206, 207–8
flow of time, 1, 2–3, 193–97
and cause and effect, 20, 21, 33, 168–69
Durkheim, religion and, 229n122
