Planck constant, 221nn51–52
Planck length, 85–86
Planck scale, 83, 125–26
Planck time, 83
Plato, 101, 102, 200
Pleistarchus, 45–46, 47
prediction, 175, 179–80, 189, 207
  and loop theory, 85, 128
present, 33, 43–44, 193–94
  meaninglessness of “now,” and loss of the present, 37–56, 107–8, 194
  temporal structure of universe without the present, 45–56, 106–7, 109–10
presentism, 106, 108, 222–23n63
probability, quantum mechanics. *See* indeterminacy, quantum mechanics
proper time, 16, 40, 216n8
Proust, Marcel, 188
Putnam, Hilary, 222n62

quantum field theory, 15
quantum gravity, 4, 81, 91, 119–20
  loop quantum gravity, 82, 85, 124–28
quantum mechanics, 14, 79, 81–92, 103, 195
  and granularity, 83–85, 124–25
  and indeterminacy. *See* indeterminacy, quantum mechanics
  and loop quantum gravity, 82, 85, 124–28
  noncommutativity, 138–40
  and quanta of time, 81–92. *See also* quantum time
  quantum superpositions of times, 87–88
  relationality, 89–90
  and relativity, 81–83, 138
quantum time, 138–42
  spinfoam and “quantum spacetime,” 126

reality, 1–2, 74, 78, 99
  and the block universe, 109, 222n62
  collective delirium and our vision of, 211
  and inadequacy of grammar, 105–15
  and memory, 178–92. *See also* memory/memories
  relations, events and world dynamics without a time variable, 117–28, 195–96
reason, 208–9
Reichenbach, Hans, 200, 227nn99–100
relationality
  quantum mechanics, 89–90
  relations, events and world dynamics without a time variable, 117–28, 195–96
relativity, 14–17, 46, 145
  and experience of flow of time, 138
  general theory of, 15–16
  and quantum mechanics, 81–83, 138. *See also* quantum mechanics
  special, 48, 218n16
Rilke, Rainer Maria: *Duino Elegies*, 20, 36
Russell, Bertrand, 169

Saadi Shirazi, 22–23
Schrödinger equations, 14–15, 102, 224n72
Shiva, 1, 17, 166
