† The Laser Interferometer Gravitational-Wave Observatory (LIGO), twinned in Hanford, Washington, and Living-ston, Louisiana.
†† R. Israel, E. Ruckhaber, R. Weinmann, et al., *Hundert Autoren Gegen Einstein* (Leipzig: R. Voigtlanders Verlag, 1931).
††† "Geodesic" is a needlessly fancy word for the shortest distance between two points along a curved surface—extended, in this case, to be the shortest distance between two points in the curved four-dimensional fabric of space-time.
†††† In graduate school I took John Wheeler's class on general relativity (where I met my wife) and he said this often.
