see also Sirius B
World War I, 124
World War II, 166, 197, 219, 222–24, 300, 309, 324, 327, 366, 469
Wormholes, classical:
overview of, 54–56, 55f
concept of, 484–85
brief summary of present status, 524
embedding diagrams of, 485f, 501f
as solutions of Einstein field equation, 486, 488, 490
probably do not occur naturally in Universe, 486
pinch-off if not threaded by exotic material, 486–88, 487f, 491
creation of, by extraction from quantum foam, 56, 494–96, 497–98
creation of, by non-quantum means, 496–97, 497–98
travel through, 500–501, 500f, relative motion of mouths, 501–4, 501f
the hookup of time through, 500–502
time machine based on, 502–4, 503f
Wormholes, quantum (in quantum foam), 55–56, 494–96, 495f

X-ray astronomy and telescopes, 309–14, 311f, 312f, 378–79; *see also* Cygnus X-1
X-rays:
as part of electromagnetic spectrum, 25f, 322, 379
as high-energy photons, 146 emitted by gas accreting into black hole, 25, 307–9, 307f, 308f, 318, 379
as key to revolution in our understanding of Universe, 378–79
role in hydrogen bomb, 243, 243f
