quantum engineering, 240
quantum field theory (QFT), 41, 111, 112, 228, 237, 286
quantum fluctuations, 255
quantum gravity, 121, 128, 133, 249, 255, 271, 285
quantum healing, 281–282, 284
quantum information theory, 226, 233, 234, 240, 253
“Quantum Mechanics and Reality” (DeWitt), 243
quantum physics, 74, 207
  as contextual, 147, 148
  as closed theory, 46, 49–50, 51
  discovery of, 1–2, 13
  essence of, 292
  foundations of, 137–138, 200–201, 207, 210, 211–215, 217, 218, 221, 223, 226, 227, 228, 230, 232, 233, 243, 264–265, 270, 274, 277, 278, 279, 280, 281, 285, 286
  history behind the physics of, 287–288
  as incomplete, 51–52, 54–56, 58, 59, 97, 113, 150, 164, 199, 270
  information-based interpretation of, 233–235, 252
  interpretation/meaning of, 5, 16, 62, 82–83, 84, 89, 105, 109, 120, 234, 238, 243, 252, 253, 270, 271, 287
  mathematics of, 16, 84, 97, 99, 103, 117, 142, 145, 160, 177, 189, 194, 196, 199, 235, 255, 257, 268, 284, 287
  and nature of reality, 4–6, 7–8, 10, 14, 16, 19–20, 49, 103
  observer’s role in, 117, 132–133, 202, 229, 234, 236, 249, 282 (*see also* measurement issues)
  origin myth for, 43–44
  predictions of, 17, 19, 49, 60, 97, 103, 104, 151, 203, 216, 257, 283
  quantum “jumps,” 33, 36, 46
  and split between large and small objects, 2, 9, 19, 46, 67, 123, 187–188, 197, 198, 200, 268–269, 270–271, 276
Quantum Theory (Bohm), 96
quantum world, 4, 39, 49–50, 148, 159, 221, 268 (*see also* Bohr, Niels: and quantum world)
Quine, Willard, 179–181, 261, 262

racism, 278–279
