CONTENTS

NOVEMBER 2026 | ISSN-2456-4885

FOR U & ME

30 "Syntax knowledge offers limited value today—cognitive flexibility matters far more"

40 Quantum Computing Unlocked

FOCUS

46 Breaking the Silos: How Open Standards Enable IoT Interoperability

50 Kubernetes at the Edge: From Cloud Native to Resource-Constrained Devices

53 Building Lightweight AI Agents for Edge Computing

56 Zero Trust Module for IoT

73 Creating Cutting-Edge IoT Devices with the ESP32 C3 Super Mini Board

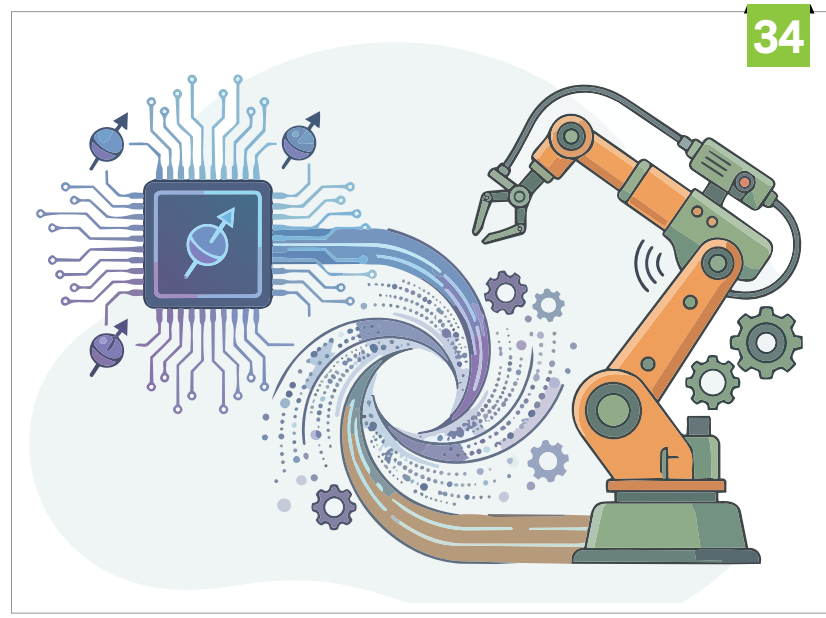

80 Scaling Open Source IoT Across Supply Chains and Retail

DEVELOPERS

93 Quantum Computing: Hadamard and the Art of Cancellation

Open Source India 2026: The Ever-Growing Open Source Ecosystem in India and Beyond

The Convergence of Quantum Computing and Physical AI

REGULAR FEATURES

07 FossBytes
