16 See Figure 17.2 and the discussion of it in Chapter 17.

17 In other words, its spin is the maximum minus 0.00000000000001 of the maximum.

18 When TARS falls in, the *Endurance* is not far, far away, but rather is on the critical orbit, quite near the horizon, whirling around the hole nearly as fast as TARS; so Amelia Brand, in the *Endurance*, does not see TARS swept around at high speed. For more on this, see Chapter 27.
