

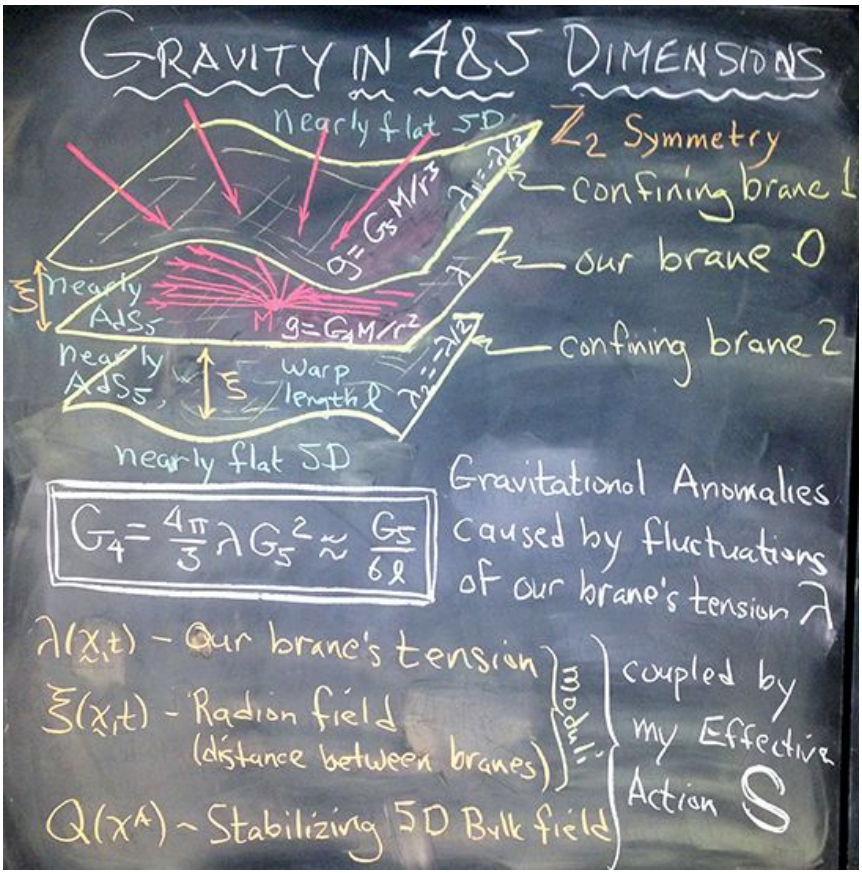

Fig. 3.6. Relativity equations on Professor Brand's blackboard, describing possible foundations for gravitational anomalies. For details see Chapter 25.

Throughout this book, when discussing the science of *Interstellar*, I explain the status of that science—truth, educated guess, or speculation—and I label it so at the beginning of a chapter or section with a symbol:

- Ⓣ for truth
- EG for educated guess
- S for speculation

Of course, the status of an idea—truth, educated guess, or speculation—can change; and you'll meet such changes occasionally in the movie and in this book. For Cooper, the bulk is an educated guess
