9 Other Ways: Alternatives to Many-Worlds

10 The Human Side: Living and Thinking in a Quantum Universe

Part Three
SPACETIME

11 Why Is There Space? Emergence and Locality

12 A World of Vibrations: Quantum Field Theory

13 Breathing in Empty Space: Finding Gravity within Quantum Mechanics

14 Beyond Space and Time: Holography, Black Holes, and the Limits of Locality

Epilogue: Everything Is Quantum

Appendix: The Story of Virtual Particles
