CONTENTS

Prologue: Don’t Be Afraid

Part One
SPOOKY

1 What’s Going On: Looking at the Quantum World

2 The Courageous Formulation: Austere Quantum Mechanics

3 Why Would Anybody Think This? How Quantum Mechanics Came to Be

4 What Cannot Be Known, Because It Does Not Exist: Uncertainty and Complementarity

5 Entangled Up in Blue: Wave Functions of Many Parts

Part Two
SPLITTING

6 Splitting the Universe: Decoherence and Parallel Worlds

7 Order and Randomness: Where Probability Comes From

8 Does This Ontological Commitment Make Me Look Fat? A Socratic Dialogue on Quantum Puzzles
